Online Safety Update

WINTER TERM 1

This issue includes

1. Online Safety Update
2. In School This Week
3. Headteacher Awards
4. Dates for the Diary

Help children stay safe online by turning off location sharing and setting accounts to private. Use privacy controls to limit who can send friend requests, send messages or comment on posts. Support their wellbeing by helping them block or report harmful content, set app time limits, and have regular conversations about what they see and experience online.

Don't forget that while most platforms require users to be 13+, some features, like live streaming or messaging, may still be unsuitable. Always review what's available and decide what's appropriate for your child.

Building our Skill set

This week, we have been settling back into school routines and helping the children get into the swing of the new term. It has been wonderful to see everyone becoming familiar with daily expectations, building confidence, and developing positive relationships with their peers.

As part of our Skills Sessions, the children have been introduced to a range of exciting activities designed to promote turn-taking, following instructions, communication, and social skills. Highlights this week included a fun science activity where the children enjoyed making slime and exploring different textures and materials.

The children have also taken part in arts and crafts, Forest School activities, sports sessions, and a variety of building and construction tasks. These experiences provide opportunities for teamwork, problem-solving, creativity, and developing independence in a supportive environment.

Throughout this half term, the children will continue to experience each of the different Skills Sessions. This will help them discover their interests and strengths before choosing a particular area of focus to develop further next half term.

Skills takes place on a Thursday afternoon.
